

FRM Series

Non-Penetrating Roof Mounts

The FRM Series of non-penetrating roof mounts is ideal for mounting DBS, PCS, satellite internet, surveillance cameras and other point to point wireless communication devices. By using 8 standard 8"x 8"x 16" concrete blocks as ballast, your communications are above troublesome ground interference without damaging your roofing surfaces.

Specifications include:

Galvanized steel construction

Dark gray weather resistant powder coat finish

Varied mast heights available

Varied mast pipe O.D. available

Quick assembly

Optional rubber roof mats available
(place under mount)

UPS shippable
