Product Specifications:

(for Architects & Engineers)

The articulating wall mount for the flat panel display shall be the Video Mount Products (VMP) model LCD-2537. The mount shall be designed to attach to a single stud of other suitable support surface. The mount shall be constructed primarily of tubular steel and shall incorporate nylon nuts and arc welds. The mount shall be a universal style capable of mounting to all 25" to 32" flat panels that incorporate 75mm, 100mm, 100x200 mm, and 200mm standard mounting hole patterns and not necessarily be model specific. The mount shall include one mounting plate that meets VESA 75 and 100 and one mounting plate which meets VESA 100x200 and 200. The mount shall include a cable management system. The mount shall be multi-configurable and capable of being assembled as a double arm articulating, single arm, or near flush mount with parts provided. The mount must allow for adjustable tilt from -5° to 20°. The load capacity shall be 50 lbs.
